

OCCUPATIONAL HEALTH AND SAFETY POLICY

UCALSA's Head Office, worried about the life, health, well-being, integrity of all components of the Company, and the prevention of environmental pollution, encouraging, inculcating and obtaining a suitable environmental behaviour of the persons who are employed in the organization, trying to make the Quality system be understood and applied as a true management system of the company, declares that to obtain this:

There has been drawn up a O.H.S. policy and a Quality and environmental policy which will be the base of the O.H.S. management system and of the Quality and Environmental system in UCALSA S.A. The Directors of the different Departments, Service Managers, Coordinators and Personnel of the Work centres will be informed of the obligation to spread the Policy in all the levels of the company.

The persons in charge of each of the UCALSA's S.A. centres will be committed to announce the Policy among the people they have in charge. Additionally, they will leave a copy of the policy in a visible place and to the access of all the people who want to know about it.

Approval date: Thirteenth of November of two thousand seven.

OCCUPATIONAL HEALTH AND SAFETY POLICY

UCALSA's Head Office, worried about the life, health, well-being and integrity of all components of the Company, whose protection is fundamental in our business management, assumes, as moral duty and as proper obligation of its responsibilities, three commitments:

- To practice leadership in the observance of a conduct that assures and favours the health and safety of all the workers, of the company's goods and environment, serving this way as an example in the fulfilment of the obligation that corresponds also to all those who are employed in this Company.
- To improve constantly the performance of the OHS Management system in reducing to the minimum possible the occupational diseases, accidents and incidents occurred performing the activities of the company, being this commitment, in turn, the first aim of the Company, since it is the biggest guarantee of the obtainment of this Policy.
- To accomplish, and as far as possible to overcome, the valid Occupational health and safety legislation applicable to the activity of the company, the requirements that are signed with other entities and the regulations that the company assumes as important in favour of the health and safety of the workers.

UCALSA S.A., bases the OHS Management System on the identification, evaluation and control of the risks that concern the services that UCALSA S.A. gives in the different work centres, these services are:

- The logistics, packing, sale and distribution of supplies in a country and international territory to make civil and military use including spanish army.
- The logistics, manipulation, sale, and distribution of food products and drinks, selling cosmetics, selling perfumery products in a country and international territory to make civil and military use including spanish army.
- The collective service catering management to civil and military customer in a country and international territory including spanish army, the residence assistance service management of city councils in a country. the free home food delivery management of city councils in a country.
- The cleaning service management in a private and military centres.
- The supermarkets management in a country.
- The old age residences management in a country.
- The day centres management of city councils in a country.

The responsibility in OHS reaches all levels and all personnel of the Company, this should be carried out firmly and competently, during the performance of all tasks and every person within their level in the company is obliged to create through his or her own personal example, the atmosphere by which all workers share the responsibility for their own security and that of their co-workers.

This responsibility will affect also those entities related professionally to the company which will be coordinated for a correct functioning in OHS activities. UCALSA S.A. is committed to spread to all members of its organization the OHS policy with an interest in increasing day after day the watch over the health, well-being and integrity of all components of the Company.
